Effective Advance Care Planning

Skill Building for the Entire Organization

Four Self-Paced Courses to Develop Advance Care Planning Skills
Buy the Entire Series for Just \$499 or Individual Courses for \$149 Each

Effective Advance Care Planning Fundamentals

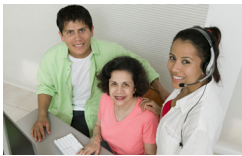

Every person working in healthcare needs to be able to explain the benefits of advance care planning to patients and family caregivers.

Effective Advance Care Planning Fundamentals prepares employees and volunteers to promote the importance of documenting care preferences. Individuals will have the opportunity to engage with case vignettes to apply their knowledge in a variety of care scenarios.

Registration: \$149

DESIGNED FOR

- Physicians
- Physician assistants
- Nurse practitioners
- Nurses
- Social workers
- Care managers
- Discharge planners
- Chaplains
- Billing specialists
- Other individuals working in primary care, acute care, long-term care, and home and community-based settings

Facilitating an Advance Care Planning Conversation

Most professionals aren't taught how to engage patients in meaningful conversations about their goals of care. **Facilitating an Advance Care Planning Conversation** teaches a person-centered framework for conducting advance care planning discussions. Practitioners are taught how to promote and discuss these conversations according to the person's stage of life and health status.

Case vignettes are included to simulate the experience of starting a conversation, engaging family members in the conversation, and overcoming barriers discovered during the process.

Registration: \$149

DESIGNED FOR

- Physicians
- Physician assistants
- Nurse practitioners
- Nurses
- Social workers
- Chaplains
- Care managers
- Discharge planners

Building Engagement with Advance Care Planning

Health behavior change theory provides a framework from which specific approaches can be developed for educating your community

about advance care planning. **Building Engagement with Advance Care Planning** offers strategies for promoting advance care planning in every environment.

Registration: \$149

DESIGNED FOR

- Physicians
- Physician assistants
- Nurse practitioners
- Nurses
- Social workers
- Care managers
- Discharge planners
- Chaplains
- Community health workers
- Outreach liaisons
- Marketing specialists

Billing for Advance Care Planning Conversations

Designed for clinicians and billing professionals working in all care settings, **Billing for Advance Care Planning Conversations** explains the ins and outs of billing Medicare for advance care

planning conversations. Learn about the new CPT codes and essential information including scenarios when practitioners can and cannot bill Medicare for advance care planning.

Participants will learn how to code and then practice coding via interactive case vignettes.

Registration: \$149

DESIGNED FOR

- Physicians
- Physician assistants
- Nurse practitioners
- APRNs
- Billing specialists
- All health care professionals
